EDUCATION

University of California, San Diego **Sep. 2024 – Jun. 2028 (anticipated)**
B.S. in Cognitive Behavioral Neuroscience; Minor in Mathematics (*Current GPA: 4.0/4.0*) *La Jolla, CA*

SKILLS

Design & Product: UI/UX Design, Branding & Visual Identity, Prototyping, Experiment Design, Market Research, Cross-Functional Collaboration, Event Organization.
Tools & Software: Figma, Adobe Creative Suite, Unity, Procreate, Python.
Languages: Bilingual in English & Mandarin Chinese.

RELEVANT EXPERIENCE

XR Lab | Research Assistant (PI: Dr. David Kirsh) | La Jolla, CA *April 2025 – Present*
- Designing interactive VR for cognitive experiments, translating research goals into functional 3D experiences.
- Developed 3D assets and interaction systems in Unity, reducing level design iteration time by ~30%.
- Conducted 10+ XR-based behavioral experiments, managing setup, participant interaction, and data collection.

Qisheng Technology | Product Design & Market Research Intern | Shanghai, China *July 2025 – Aug 2025*
- Designed AR marketing campaigns and interactive mini-game concepts for international clients; Mid-Autumn Festival concept selected for production.
- Conducted market research on global AI and AIGC trends, expanding a comparative dataset by adding 3+ generative AI image tools to inform design direction.

TapSpeech | Graphics Associate | Hong Kong *June. 2021 – July. 2021*
- Designed logo, UI, and website for an accessibility-focused mobile app, prioritizing usability for elderly users.
- Project awarded **1st place** at the HK City I&T Grand Challenge, securing **HK$40,000 in funding**.

PROJECTS

Triton Neurotech: EEG+EMG Wheelchair | Project Member, EEG Team *Nov. 2025 – Present*
- Analyzing motor imagery–based intent detection using live EEG and MOABB datasets for assistive mobility.
- Integrated UX design principles to emphasize real-world usability and patient experience in EEG-wheelchair.

CapyStudy Focus App | Design Lead *May. 2025 – Present*
- Led end-to-end visual design for a productivity app, delivering developer-ready UI, branding, and mascot assets that enabled ongoing app development.
- Capybara mascot sticker designs selected by UCSD University Centers and currently sold on campus.

Catify AI | Design Lead *June. 2025 – Nov. 2025*
- Designed end-to-end UI, logo, and mascot for an AI image-generation app, delivering Figma prototypes adopted as the design foundation for development.

Bearcat Bargains: Hotchkiss Student Marketplace | Co-Founder and Director *Apr. 2024 – June. 2024*
- Co-founded and led branding, marketing, and website development for a secondhand marketplace platform.
- Reached **150+ student users** within the first month, promoting reuse and reducing campus waste.

LEADERSHIP & INTERESTS

- **Graphic Design Chair, SASE UCSD:** Directed social media, branding, and campaigns for a 500+ member science & engineering organization.
- **Event Organization:** Planned and co-led large-scale ski trips, managing transportation, housing, and budgeting.
- **Creative Work:** Published online novels reaching **225K+ readers**; personality tests with **32K+ participants.**
