EDUCATION

University of California, San Diego Expected Jun 2028

B.S. Cognitive Science, Machine Learning and Neural Computation | Minor in Mathematics

GPA: 3.97/4.00 | **Coursework:** Data Science, Probability, Linear Algebra, Statistical Methods

EXPERIENCE

EY | Hong Kong Jun - Sep 2026

Financial Risk Consulting Intern

- Delivered daily AI-assisted Early Warning Signal reports to three banking clients; reviewed news, corrected classifications, and communicated findings to support financial risk monitoring.
- Validated AI-generated financial statement categorizations through manual review and research on reporting structures and credit-rating requirements; provided feedback on category coverage and errors.
- Built three scenario-based discounted cash flow recovery models for distressed and defaulted bonds, using historical cash flows and alternative repayment assumptions to estimate recoverable value.

Villa Lab | UC San Diego Mar 2026 - Present

Research Assistant | PI: Elizabeth Villa

- Maintain human iPSC-derived neuron cultures for research on regulation of protein production under cellular stress, supporting investigations relevant to neurodegeneration.

XR Interaction Lab | UC San Diego Apr 2025 - Present

Research Assistant | PI: David Kirsh

- Recreated a physical space in VR using Blender and SketchUp for a senior honors thesis; translated the research environment into 3D assets.
- Supported pilot sessions for a PhD study comparing plants versus no plants in a biophysiological stress experiment.

Qisheng Technology | Shanghai Jul - Aug 2025

Product Design & Market Research Intern

- Researched generative AI tools and designed interactive marketing concepts; Mid-Autumn Festival mini-game concept selected for production.

TECHNICAL PROJECTS & LEADERSHIP

Triton Neurotech | UC San Diego Nov 2025 - Present

Project Lead (2026); previously EEG Team Member

- Lead project planning to investigate whether low-cost EEG motor-imagery decoding relies on neural activity or eye, muscle, and head-motion artifacts.
- Define comparisons across EEG-only, artifact-only, and combined models, with channel ablations and cross-session evaluation planned to assess decoding reliability.

E-Commerce Delivery & Customer Reviews Fall 2026

Statistical Modeling | Course Project

- Fit a binomial logistic regression relating late delivery to low review scores; estimated 11.45 times higher odds of a low review for late orders, with a 95% confidence interval of 10.90-12.04.

Triton Consulting Group: Analyst, Fall 2026 cohort.

Society of Asian Scientists and Engineers: Publicity Director, UCSD; Marketing Lead, West Regional Conference (Jan 2027). Coordinate branding, deliverable assignments, and campaign scheduling.

SKILLS & INTERESTS

Data & Analysis: Python, Excel, statistical modeling, data visualization, experimental design
Research & Tools: Cell culture, ImageJ/Fiji, 3D Slicer, Unity, Blender, SketchUp, Figma
Languages: English, Mandarin Chinese | **Interests:** Climbing, volleyball, snowboarding
